Changes Considered Likely in Episcopal Diocese Very Soon

Orders of Physicians Sending Bishop Fisk to Europe Will Bring Important Matters Before Diocesan Convention in Two Weeks.

The statement that the Rt. Rev. Charles Fiske of this city, bishop of the diocese of central New York, has been ordered by his physicians to take a rest of several weeks in Europe for treatment at some of the watering places, will bring before the coming diocesan convention, which is to be held in Syracuse in two weeks, questions of considerable importance.

The first of these is the selection of a suffragan or coadjutor bishop to assist Bishop Fiske in the work of the diocese. He is assisted at the present time by Archdeacon Foreman, but an archdeacon does not have the powers and authority of a bishop or a coadjutor bishop, or even of a suffragan bishop. The work of the diocese has increased in the past several years, and it has become evident that its progress is advanced through the frequent visitations of the bishop to the smaller parishes and towns. Churchmen say that the diocese has never been in a more flourishing condition, and it is felt that the constant work of the bishop and a coadjutor or suffragan is very much needed.

The diocese is abundantly able to provide for this additional help, as its endowment funds are large and are well invested, and there is a steady and favorable growth in church membership.

The other alternative would be a division of the diocese, and this has been advised by a number of both clergy and churchmen.

It is pointed out, however, that if this is done it will make necessary the establishment of a second headquarters, with the additional expense, and that such a plan could not be carried through under a considerable lapse of time.

But even more complicated than this is the fact that a great part of the endowment funds have been so bequeathed that they are to be used for the support of the diocese in which Utica is located.

A division of the diocese, therefore, would not permit a division of the large endowment funds, which at present pay the salary and expenses of the bishop. The bulk of the income from the endowments would go ot the diocese in which Utica would be the see city, and the other section of the diocese, which would become a new diocese, would have to start all over again to build up a working fund.

It is understood that the proposition to divide the diocese is being pushed mainly from Syracuse, where some jealousy has been shown because the late Bishop Olmstead continued to reside in this city, and later Bishop Fiske moved here to occupy the Perkins property in upper Genesee street, which had been devised to the diocese as a residence for the bishop.

Churchmen point out, however, that Syracuse has never shown great activity in providing for a bishop, and the story is told that when the diocese was established, the promise was made that if Bishop Huntington would make Syracuse the see city, he would be provided with an adequate residence and maintenance provided. Instead, Bishop Huntington, through his long service as bishop of the diocese, lived all the time in a rented house in Syracuse, either providing the rent himself or being assisted by diocesan funds.

Whichever way it goes, Utica can view the situation with equanimity.

G.&E. Company May Build New Local Subways

A new proposal by which the Utica Gas & Electric Company would build the electric light subways for the city, erect the ornamental lights, furnish the power and maintain these properties at a slightly higher scale of price for current, was accepted by the Board of Contract and Supply yesterday afternoon and will be submitted to the Common Council Wednesday night for final approval.

The new scale, which would be effective until December, 1926, is as follows:

Two hundred and fifty-candle power, $65; 400-candle power, $80; 600-candle power, $92; 1,000-candle power, $115.

The price for 1,000-candle power is $5 a light a year higher than last year, but this increase is offset by the fact that the city will not construct the subways.

Plans and specifications for sewers, catch basins and pavements, prepared by City Engineer Harry R. Hayes, were filed.

The city was given right of way to construct a sewer in Halleck Ravine, across Genesee street, by Carlisle Spafford, owner of property adjoining the proposed sewer.

H. R. Beebe Company asked permission to assign its contract for paving streets to Dale Engineering Company. N. D. Peters asked permission to assign his Catharine street storm water sewer contract to Hugh Heverin. Both were granted under condition the bonding company approved the change.

Eugene L. Dowd was awarded contract to pave seven sidewalks. The amount is $1,920.35. Harry W. Roberts & Co. received the contract to repave and widen Second street. The company submitted the same cost for bitulithic and asphalt pavements, $4,163.70.

MRS. P. A. BACH PASSES AWAY AT HER HOME

Final Illness Shows Seriousness Within Past Few Days—Death Causes Keen Sorrow.

With the death of Mrs. Peter F. Bach at the family home, 904 Lenox avenue this morning, there was removed one of West Utica's most estimable women. Although she had been in failing health for the past four months, the final attack, a heart affliction with which she was stricken Monday made her death unexpected to the host of friends who had hoped for her recovery. Mrs. Bach enjoyed an automobile ride with members of her family Sunday and her condition at that time was such as to inspire hope.

Mrs. Bach before her marriage was Elizabeth Ollerrenshaw. She was born in New Hartford, July 24, 1855, a daughter of the late Joseph and Elizabeth Ollerrenshaw. Practically all her life had been spent in this city. She was educated in the local schools and was a lifelong member of St. Patrick's Church where she was both baptised and married by the late Rev. Patrick Caraher. She was affiliated with the societies of that church. Her friends knew her as a woman devoted to her church and to her family.

The passing of Mrs. Bach removes the wife of a man prominently identified with business in West Utica for the past 50 years, and the mother of a young woman who has taken a prominent place in the city's public life. Peter F. Bach was formerly head of the Citizens' Ice Company and proprietor of the Citizens' Market in Court street. The daughter, Ada Bach, widow of Charles Kammerlohr, is at present assistant cashier in the office of City Treasurer Thomas C. Redmond, and was formerly Deputy Commissioner of Charities.

The marriage of Mr. and Mrs. Bach took place Sept. 25, 1876. Besides her husband, Mrs. Bach is survived by three daughters, Mrs. Kammerlohr, and Miss Bertha M. Bach of this city, and Harriet, wife of Walter Warburton of Buffalo; one son, P. Arthur Bach of Bethlehem, Pa.; one granddaughter, Ann Elizabeth, daughter of P. Arthur and Helen Hoblischon Bach; four sisters, Mrs. David E. Owens, Mrs. Charles C. Schaub, Mrs. Michael Hoffmeister and Mrs. Bertha Cole, and two brothers, Robert and Joseph Ollerrenshaw.

Dairymen Move; May Price Lower

Many changes in the plants and offices of the Dairymen's League Co-operative Association occurred during the annual moving period the first of this month. Division offices of the league, formerly located in the Mann Building, are now in the Kempf Building. R. H. Scolk is directing membership in five counties.

The retail and machine warehouse in Main street were vacated and the machinery transferred to the Wurz avenue, Lafayette street, and Green street plants. The Main street building will be used for storage purposes by the Scala Packing Company, owners. The editorial department of the Dairymen's League News has moved to Waterville.

Packing of all ice cream for distribution in this territory will be done at the Wurz avenue plant.

The producers' May price for Class 1 milk has been reduced one cent a quart, according to an announcement from the offices of the league in New York.

The reduction was announced as from $2.33 to $1.86 per 100 pounds, this being the base price at the 201-210 mile milk freight zone for milk testing 3 per cent. butter fat.

Kellogg property at 216 Genesee stret to its name with the funds thus raised, according to an announcement by Merwin K. Hart, president, following a meeting yesterday of the club's directors.

Mr. Hart was pleased with the support given by the members in this matter and thought it augured well for the future of the club. The directors also were appreciative of the patience of the membership during the weeks devoted to organization, securing the property and financing its purchase. They believe everything is now ready so that a house warming [illegible] in the near future.

Canadian Horsewoman Finds Relatives and Friends Living Here

Girl Courier, Arriving Today From Belleville, Ont., Greets Mayor and Becomes Guests of Uticans Who Were Former Residents of Belleville.

Bearing a healthy coating of tan from her exposure to the sun and wind during the last nine days but not the least bit fatigued, Miss Gwendolyn Lazier, the 19-year-old girl courier who is driving from Belleville, Ont., to Washington, D. C., on horseback, arrived at the City Hall shortly after 12:30 o'clock today to pay her respects to Mayor Fred Gillmore.

Mayor Gillmore welcomed the young woman on behalf of the city and chatted with her for several minutes during which time she expressed her wonder at the size of Utica, which she said, would be considered a metropolis in Canada. She also told the mayor about her home town, Belleville, about the big celebration that the city is to have there in June and, invited him to attend as a guest of honor.

While she was talking with the Mayor, the young woman's horse, "Tip," a war veteran, was receiving considerable attention, passersby admiring the fine speciman of horse flesh. "Tip" is spending the day at the city stables, receiving the care befitting a horse that served honorably during the war.

The first woman to clasp Miss Lazier's hand as she alighted from "Tip" at the City Hall was Mrs. John Schaal of 56 Auert avenue, North Utica. Mrs. Schaal, a former resident of Belleville, has many relatives in the Canadian city with whom Miss Lazier is well acquainted. The young horsewoman expressed her pleasure at the greeting.

To an Observer-Dispatch reporter, Miss Lazier expressed deep appreciation of the hospitality she has found in New York State, asserting that while traveling along the highways and while stopping in the cities and towns, she has been treated with utmost courtesy. As to the trip, she said:

"It is simply great. I find it real fun and am enjoying every mile of the journey. Everyone I pass road and farmers come out and greet me all along the way. Newspapermen are usually among the first to see me and cameramen among the first to stop me as I approach the cities. Altogether I've had my picture taken 11 times since I left Cape Vincent.

"I spent last night in Barneveld where the people treated me royally. In Boonville, the night before, I was the guest of honor at a big dinner and was called upon to substitute for the speaker who couldn't keep the engagement."

Today and tonight, Miss Lazier will remain in Utica as guest of the Misses Grace and Marjorie Waters and Miss Stella M. Jenkins, all former residents of Canada, who now reside at Genesee street and Emerson avenue.

Among others she was glad to see when she arrived here were County Treasurer A. M. Dickinson and his sister, Mrs. William G. Edwards, distant relatives.

The young horsewoman is carrying an invitation to President Coolidge to attend the celebration in Belleville and she expects to deliver that invitation inside of about five more weeks. She averages about 18 miles a day. After leaving here tomorrow morning Miss Lazier will ride east and will stop at either Ilion, Herkimer or Little Falls, depending upon the condition of her horse.

Union's Agents Again Confer With Officials On Increase In Wage

Conferences Are Resumed Following Almost U mous Rejection of Company's Proposed Redu tion in Pay and Separate Arbitration—Strike Only as Last Resort.

W. Rayp Tallman and Patrick T. Noon, representing Utica local of the Amalgamated Association of Street Railway employes, formed a part of the committee which this afternoon again went into session in Rochester with James F. Hamilton, general manager of the railways, in the effort to secure more pay and changed working conditions.

The original demands presented by the union officials, which were for 15 cents an hour increase and a week of six working days was rejected by the company. The 2,100 men divided among the three city divisions almost unanimously voted down the proposed cut in pay and the separate arbitration contained in the company's contract.

Out of 350 votes cast in Labor Temple up to 8 p. m. yesterday, 345 were against accepting the new contract, two voted for the reduction and two ballots were void. In Syracuse the vote was 456 to 3 for rejection and in Rochester the men unanimously turned down the company's proposition.

Rochester union officials state that a strike will be the last resort, that the association is built on the foundation of arbitration. Officials of the company are confident that a solution may be reached, but what compromises, if any, result from further conference not be learned.

The attitude of both co and union officials seems to reach an agreement withou trouble. The offer of the co in the contract presented union to recognize unioniza the bus lines and to gra same working conditions as of the past year, was not ered by the man to be [illegible] two cent cut. They will pl matter in the hands of a b arbitration if further conf fail.
